

CHLOROPRENE GLOVES

Exceptional Protection | Superior Experience

POWDER-FREE, NON-STERILE, DISPOSABLE

When you want the most comfortable glove out there, the choice is clear: Polychloroprene or simply, Chloroprene. There is no other glove in the industry that offers the dexterity, elasticity, and extended-wear comfort that our Chloroprene glove does. Like Nitrile, Chlorophene does not contain latex proteins known to cause latex allergies. Simply put, it's a glove like no other. Chloroprene offers the best of both worlds:

- ✓ Soft and supple - the comfort and fit that gloves made of Natural Rubber Latex provide, and
- ✓ Synthetic strength - strong tear and puncture resistance like that of Nitrile gloves.

A totally unique chemical formulation distinguishes Chloroprene from any other glove in the market today. Experience the quality of a surgical glove in our Chloroprene medical examination glove.

OUR CHLOROPRENE GLOVES OFFER:

- ✓ Excellent dexterity for precision procedures, and an outstanding extended-wear comfort
- ✓ Latex-like feel for enhanced softness and a better fit
- ✓ Strong puncture and tear-resistance for high-risk procedures
- ✓ Excellent chemical resistance to many alcohols, fats, oils and solvents
- ✓ Exceptional polymer-coating that allows for easy 'glide-on' donning
- ✓ Chemotherapy resistance to the ASTM D6978 standard
- ✓ No latex proteins - can be worn by most people without the risk of Type 1 allergic reactions

SUITABLE FOR USE IN:

MEDICAL EXAMINATION FOOD HANDLING GENERAL PURPOSE

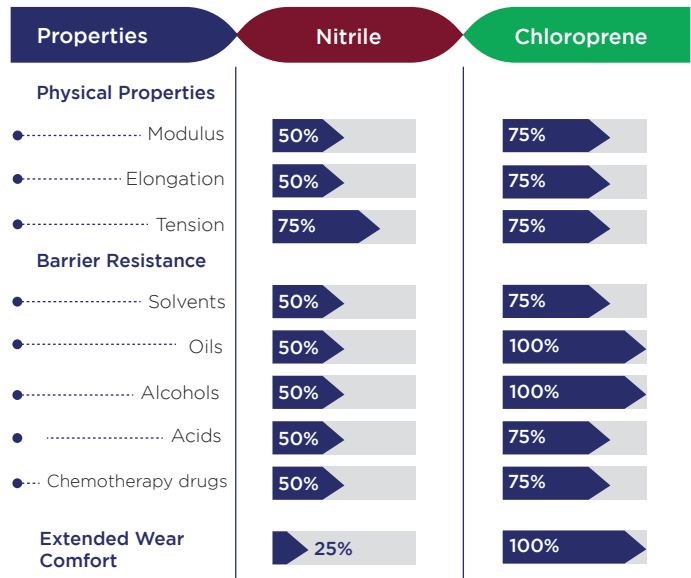

PREFERRED BY: Dentists, laboratory technicians, health care providers, food processing industry.

**Australian Register for
Therapeutic Goods
ARTG No: 338678**

PRODUCT CONFORMANCE

Our Chloroprene gloves are manufactured in accordance with these standards:

- International: ISO 13485 and ISO 10993
- ISO 9001:2015 & ISO 14001:2015
- ASTM D6977, FDA Quality Standard Regulation
- European Medical Device Directive 93/42/EEC and EN 455
- Compliance to PPE 89/686/EEC (Cat III)
- FDA (510k) approved
- TGA approved

PACKAGING & SIZES

- 50/100 gloves per box
- Sizes: XS, S, M, L, XL, XXL
- Colours: Green, White, Pink and Blue

OUR GLOVES ARE COMPLAINT WITH AND TESTED FOR

- EN 374-3 and ASTM F739: Resistance to chemical permeation
- EN 455
- EN 1186 and ASTM 21.CFR.177.2600: Migration testing for food contact
- ASTM F1671: Resistance to Viral testing
- ASTM F1670: Resistance to synthetic blood penetration
- ASTM D6978: Permeation resistance to Chemotherapy drugs
- Tested for Residual accelerators

QUALITY STANDARDS

- Freedom from holes (AQL) 1.5
